The committee first met late in 2021 for basic training in stewardship processes with Mark Clark, Diocesan Stewardship Director. It was an in depth presentation to further understand the roles of "time, talent and treasure" and their applicability to our parish.

The first official meeting was held in January 2022, where the committee began to identify how to bolster tithing, parishioner participation in ministries, and an upcoming capital campaign. While several ideas were presented, the main issue to success is getting parishioners back to church. The next is streamlining avenues of communication. Ultimately, a lot of coordination will need to take place in order to flesh out and implement committee suggestions.

The Stewardship committee welcomes suggestions and dialog from our OLGC community. Please feel free to contact any of our members if you have something to share! You may leave a message at the parish Office 455-3012.
